Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel

PS-1	A Sports Analyst	understand long-term medal trends and regional dominance	the raw data is too massive and scattered across multiple CSVs	there is no centralized, interactive visualization tool	overwhelmed and inefficient
PS-2	An Olympic Committee Member	evaluate our country's performance against global competitors	we lack immediate visual com-parisons of athlete efficiency and investmen-t	current reporting is static and lacks dynamic filtering	frustrated and unable to make data driven decisions
